

BREAK OUT TOOLING

Black Diamond provides a comprehensive range of break out tooling from bit baskets for both rotary and Down-the-Hole (DTH) bits, jaw inserts, grip extensions, and deck spanner. Each and every product is custom made to suit the client's specifications. This ensures that each client's needs would be met without compromising quality. A state-of-the-art manufacturing facility allows each custom-made tool to have a short lead time, ensuring that tool requirements are met in a timely manner.

	1	Item No.	RIG-D65-BOJ-T
		Description	Break out jaw tungsten for D65/L8
		Weight	1.05kg
	2	Item No.	RIG-D65-BOJ-S
		Description	Break out jaw serrated for D65/L8
		Weight	1.7kg
